PROFILE

AI/ML graduate with hands-on experience building, testing, and troubleshooting Python-based applications, APIs, and local LLM deployments. Skilled in application debugging, root-cause analysis, issue reproduction, technical documentation, and Docker-based environments. Oracle-certified in Agentic AI Foundations, with strong analytical, communication, and customer-support-oriented problem-solving skills.

TECHNICAL & SUPPORT SKILLS

Support & Service Management:	Incident Management & Response, Change Management, Support Process Management, ITIL
Communication:	Impactful Communication, Customer-facing Communication, Technical Documentation
Troubleshooting:	Application Debugging, Root-Cause Analysis, Issue Reproduction, End-to-End Testing
Programming & Tools:	Python, SQL, FastAPI, REST APIs, Git & GitHub, Docker
AI/ML Systems:	LLM Deployment, RAG Pipelines, LangChain, Agentic AI, Prompt Engineering, PyTorch, TensorFlow
Other:	IoT Security Fundamentals

CERTIFICATIONS

- Oracle — Agentic AI Certified Foundations Associate
- Reliance Foundation — AI Machine Learning Engineer
- Prompt Engineering
- IoT Security Analyst

PROJECTS

PDF Analyzer

Python, Ollama, FastAPI, Streamlit

- Built and debugged a local RAG pipeline for document Q&A, resolving integration issues between the FastAPI backend and open-source LLM inference. Tested application functionality end-to-end and documented setup and troubleshooting steps for local deployment.

LangChain Job-Fit Analyzer

Python, LangChain, ChromaDB, Ollama, Streamlit

- Built and supported a local agentic RAG application with four custom LangChain tools, diagnosing and fixing tool-calling and retrieval errors during development. Implemented resume upload and chat-based analysis, handling edge cases and user-input errors gracefully.
